

# California OES Weather Threat Briefing

Monday, January 24, 2022  
9:00 AM PST

**Day 1 (Monday):** No widespread impactful weather is expected. However, some locally dense fog will be seen across parts of the Central Valley through late morning, likely redeveloping overnight.

**National Weather Service**

*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

# WEATHER KEY POINTS

**01/24/22 - 01/30/22**

## Monday - Sunday

- Areas of overnight and morning dense fog will continue through at least midweek for portions of the Central Valley, and possibly across some of the deeper mountain valleys as well
- Dry weather is also expected to continue statewide through the weekend along with rather mild temperatures for late January
- Another period of gusty offshore winds is forecast later Tuesday and Wednesday across the southern California mountains and foothills and the Sierra, with gusts of 30 to locally 50 mph possible
